

Introduction to Tableau Class Prep

Prior to the class please download the class materials. You can do this through GitHub:

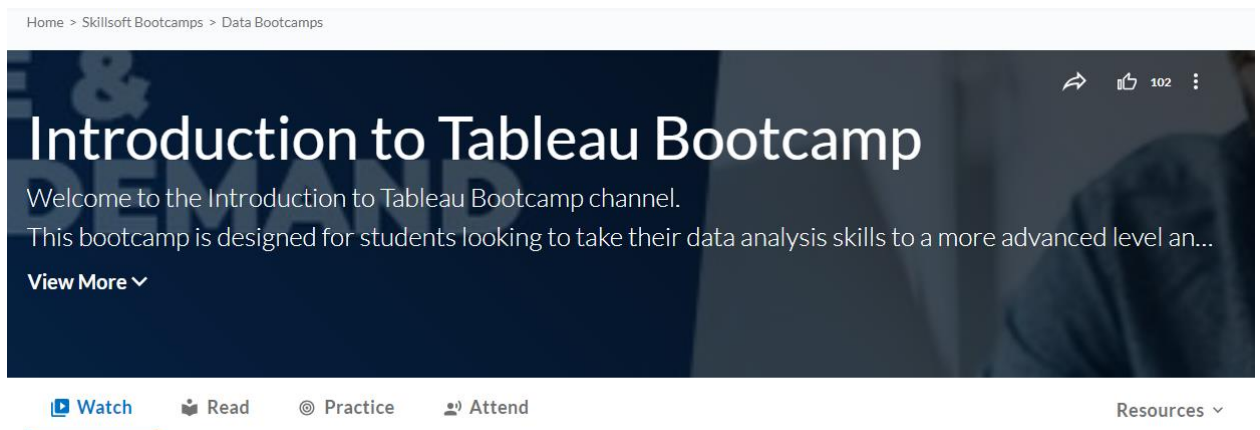

<https://github.com/Skillsoft-Content/TableauBootcamp>

If you are a Percipio user:

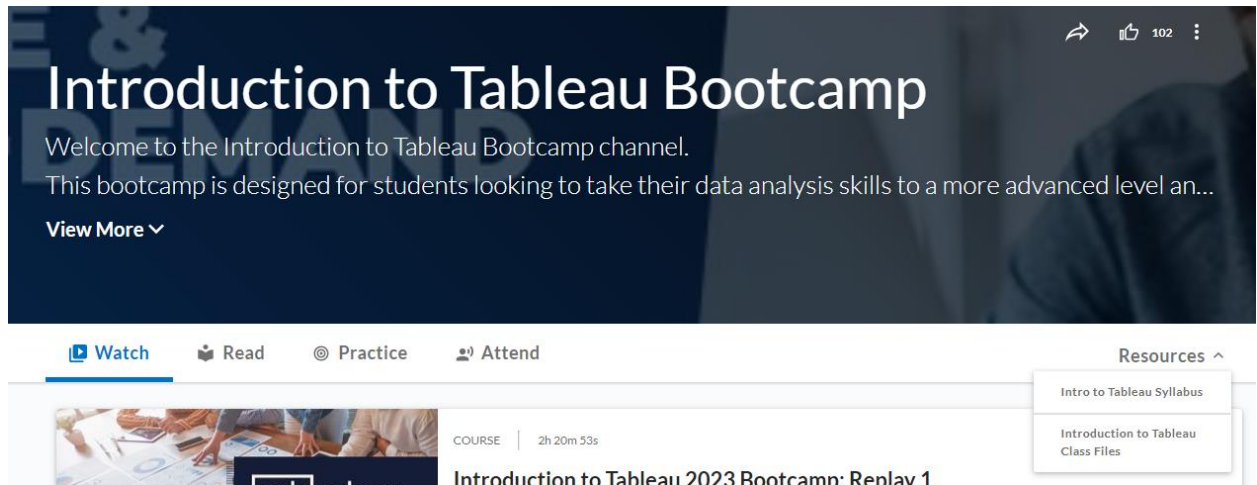

1. Log into Percipio
2. Select 'Library' > 'Skillsoft Bootcamps' > 'Data Bootcamps'
3. Choose 'Introduction to Tableau Bootcamp'

4. On the right side of the page select the "Resources" drop-down.

5. Then choose the files to download.

Introduction to Tableau Bootcamp

Introduction to Tableau 2023 Bootcamp: Replav 1

COURSE | 2h 20m 53s

Install

You will need to install the trial version of Tableau Desktop.

You will need to register for the Tableau 14 day trial here, before you can use the Desktop software: <https://www.tableau.com/products/desktop/download>

Lab Sandbox

If you are not able to install the software locally, feel free to use the **Tableau Bootcamp Sandbox**. To locate the lab in Percipio:

1. Log into Percipio
2. Select 'Library' > 'Skillsoft Bootcamps' > 'Data Bootcamps'
3. Choose 'Introduction to Tableau Bootcamp'

- # Introduction to Tableau Bootcamp
